

Negotiations

Negotiators' Report for Week Ending March 19, 2010

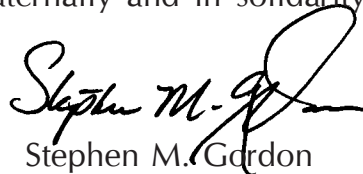

Your committee continued to work on proposals to be presented to the Company during the next round of face-to-face negotiations scheduled the week of March 22. A lot of research is being conducted on the openers for Articles 2 and 3 (which focus on subcontracting and mergers), including communications with Tom Brickner, the International Airline Coordinator.

Tuesday, March 16, the committee split up to make visits to Local Lodge 601 (ANC) and Local Lodge 2202 (SEA) monthly lodge meetings and report in more detail to the membership. The members commented on the Company's opener regarding the changes to the lead classification. It has been made clear to the committee that our members are not interested in the Company proposal regarding management select on the bid award process classification and feel outraged at the diminishing respect toward the Union's seniority process.

To get acquainted with your negotiating committee, a picture and bio for the individual members have been posted on the District 143 website. Your committee consists of five (5) elected members plus General Chair Jackie Fay and President/Directing General Chair Stephen Gordon.

NOTE: Your committee was informed that there is an article about our CEO Bill Ayer in the Juneau empire about his 2009 pay. You can read about it at http://www.juneauempire.com/stories/031710/sta_591970173.shtml.

Fraternally and in solidarity,

Stephen M. Gordon
President/Directing General Chair
